NEW YORK, Feb. 12, 2018 /PRNewswire/ -- Genpact Limited (NYSE: G), a global professional services firm focused on delivering digital transformation, today announced financial results for the fourth quarter and full year ended December 31, 2017.

"We are very pleased with our full year 2017 results. We grew Global Client BPO revenues 14% on a constant currency basis and generated double-digit adjusted EPS growth," said **"Tiger" Tyagarajan, Genpact's president and CEO**. "The strategic investments we are making in digital, domain, and talent drove 25% growth in transformation services revenues from our Global Clients. We will remain sharply focused on a specific set of industry verticals and service lines, and continue to use the increasing power of our Genpact Cora platform to unleash opportunities for our clients."

Non-GAAP Financial Measures to GAAP Measures

To supplement the consolidated financial statements presented in accordance with GAAP, this press release includes the following measures defined by the Securities and Exchange Commission as non-GAAP financial measures:

- Adjusted income from operations attributable to shareholders of Genpact Limited, or adjusted income from operations;
- Adjusted income from operations margin;
- Adjusted diluted earnings per share attributable to shareholders of Genpact Limited, or adjusted diluted earnings per share; and
- Revenue growth on a constant currency basis.

These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, these non-GAAP financial measures, the financial statements prepared in accordance with GAAP and the reconciliations of Genpact's GAAP financial statements to such non-GAAP financial measures should be carefully evaluated.

Prior to July 2012, Genpact's management used financial statements that excluded significant acquisition-related expenses, amortization of related acquired intangibles, and amortization of acquired intangibles at the company's formation in 2004 for its internal management reporting, budgeting and decision making purposes, including comparing Genpact's operating results to that of its competitors. However, considering Genpact's frequent acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions and the amortization of acquired intangibles thereof, since July 2012 Genpact's management has used financial statements that exclude all acquisition-related expenses and amortization of acquired

intangibles for its internal management reporting, budgeting and decision-making purposes, including comparing Genpact's operating results to those of its competitors. For the same reasons, since April 2016 Genpact's management has excluded the impairment of acquired intangible assets from the financial statements it uses for internal management purposes. Acquisition-related expenses are excluded in the period in which an acquisition is consummated.

Genpact's management also uses financial statements that exclude stock-based compensation expense. Because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use when adopting ASC 718 "Compensation-Stock Compensation," Genpact's management believes that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons between Genpact's operating results and those of other companies. Additionally, in its calculations of such non-GAAP financial measures, Genpact's management has adjusted other income and expenses, certain gains, losses and impairment charges attributable to equity-method investments, and gains or losses attributable to non-controlling interests because management views these interests as part of its ongoing operations. For the purpose of calculating adjusted diluted earnings per share, the combined current and deferred tax effect is determined by multiplying each pre-tax adjustment by the applicable statutory income tax rate.

Genpact's management provides information about revenues on a constant currency basis so that the revenues may be viewed without the impact of foreign currency exchange rate fluctuations, thereby facilitating period-to-period comparisons of our true business performance. Revenue growth on a constant currency basis is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

Accordingly, Genpact believes that the presentation of adjusted income from operations, adjusted income from operations margin, adjusted diluted earnings per share and revenue growth on a constant currency basis, when read in conjunction with the Company's reported results, can provide useful supplemental information to investors and management regarding financial and business trends relating to its financial condition and results of operations.

A limitation of using adjusted income from operations and adjusted income from operations margin versus income from operations and income from operations margin calculated in accordance with GAAP is that these non-GAAP financial measures exclude certain recurring costs and certain other charges, namely stock-based compensation and amortization and impairment of acquired intangibles. Management compensates for this limitation by providing specific information on the GAAP amounts excluded from adjusted income from operations and adjusted income from operations margin.

The following tables show the reconciliation of these Non-GAAP financial measures from GAAP for the year and three months ended December 31, 2016 and 2017:

¹ Revenue growth on a constant currency basis is a non-GAAP measure and is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

² Global Client BPO revenue growth rates have been adjusted to assume that the GE revenue reclassifications we undertook at the end of fiscal 2016 occurred on January 1, 2016. On an unadjusted basis, Global Client BPO revenue was up 14% (~15% on a constant currency basis). See the information under the heading "Revenue Details – Full Year 2017."

³ Adjusted diluted earnings per share is a non-GAAP measure. A reconciliation of GAAP diluted earnings per share and adjusted diluted earnings per share is attached to this release.

⁴ Adjusted income from operations and adjusted income from operations margin are non-GAAP measures. A reconciliation of GAAP income from operations and adjusted income from operations and a reconciliation of GAAP income from operations margin and adjusted income from operations margin are attached to this release.

⁵ New bookings, an operating measure, represents the total contract value of new contracts and certain renewals, extensions and changes to existing contracts. Regular renewals of contracts with no change in scope are not counted as new bookings.

⁶ At the end of each fiscal year, we reclassify revenue related to certain divested GE businesses as Global Client revenue as of the dates of divestiture. Additionally, at the end of 2016, we reclassified revenue from our acquisitions of Endeavour Software Technologies Pvt. Ltd. and PNMSoft Ltd. from IT services to BPO revenue effective as of the date of the acquisitions. The impact of these reclassifications is reflected in the growth rates presented under this heading. In order to provide a consistent view of the trends underlying our business, we are also presenting under this heading growth rates adjusted to assume that the 2016 GE reclassifications occurred on January 1, 2016. The reclassification of revenue related to certain divested GE businesses as Global Client revenue for 2017 was immaterial.

⁷ Adjusted income from operations margin is a non-GAAP measure. A reconciliation of the outlook for GAAP income from operations margin and adjusted income from operations margin is attached to this release.

⁸ Adjusted diluted earnings per share is a non-GAAP measure. A reconciliation of the outlook for GAAP diluted earnings per share and adjusted diluted earnings per share is attached to this release.
