Notes to the Consolidated Financial Statements

(Unaudited)

(In thousands, except per share data)

1. Organization

(a) Nature of Operations

The Company is a leader in the globalization of services and technology and a pioneer in managing business processes for companies around the world. The Company combines its process expertise, information technology expertise and analytical capabilities, together with operational insight derived from its experience in diverse industries, to provide a wide range of services using its global delivery platform. The Company's service offerings include finance and accounting, collections and customer service, insurance services, supply chain and procurement, analytics, enterprise application services and IT infrastructure services. The Company delivers services from a global network of approximately 39 locations in thirteen countries. The Company's service delivery locations, referred to as Delivery Centers, are in India, the United States ("U.S."), China, Mexico, Romania, The Netherlands, Hungary, The Philippines, Spain, Poland, Guatemala, South Africa and Morocco.

(b) Secondary Offering

On March 24, 2010, the Company completed a secondary offering of its common shares by certain of its shareholders that was priced at \$15 per share. The offering consisted of 38,640,000 common shares, which included the underwriters exercise of their option to purchase an additional 5,040,000 common shares from the Company's shareholders at the offering price of \$15 per share to cover over-allotments. All of the common shares were sold by shareholders of the Company and, as a result, the Company did not receive any of the proceeds from the offering. The Company incurred expenses in connection with the secondary offering of approximately \$591, which have been recognized under 'Other income (expense), net' in the Consolidated Statement of Income for the three-months ended March 31, 2010. Upon the completion of the secondary offering, the General Electric Company's ("GE") shareholding in the Company decreased to 9.1% and it ceased to be a significant shareholder although it continues to be a related party in accordance with the provisions of Regulation S-X Rule 1-02(s).

2. Summary of significant accounting policies

(a) Basis of preparation and principles of consolidation

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. Accordingly, they do not include certain information and footnote disclosures required by generally accepted accounting principles for annual financial reporting and should be read in conjunction with the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

The unaudited interim consolidated financial statements reflect all adjustments that management considers necessary for a fair presentation of the results of operations for these periods. The results of operations for the interim periods are not necessarily indicative of the results for the full year.

The accompanying unaudited interim financial statements have been prepared on a consolidated basis and reflect the unaudited interim financial statements of Genpact Limited and all of its subsidiaries that are more than 50% owned and controlled. When the Company does not have a controlling interest in an entity, but exerts a significant influence on the entity, the Company applies the equity method of accounting. All inter-company transactions and balances are eliminated in consolidation.

The noncontrolling interest disclosed in the accompanying unaudited interim consolidated financial statements represents the noncontrolling partners' interest in the operation of Genpact Netherlands B.V. and noncontrolling shareholders' interest in the operation of Hello Communications (Shanghai) Co., Ltd. and the profits or losses associated with the noncontrolling interest in those operations. The noncontrolling partners of Genpact Netherlands B.V. are individually liable for the tax obligations on their share of profit as it is a partnership and, accordingly, noncontrolling interest has been computed prior to tax and disclosed accordingly in the unaudited interim consolidated statements of income.

GENPACT LIMITED AND ITS SUBSIDIARIES**Notes to the Consolidated Financial Statements****(Unaudited)****(In thousands, except per share data)****2. Summary of significant accounting policies (Continued)*****(b) Use of estimates***

The preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements. Significant items subject to such estimates and assumptions include the useful lives of property, plant and equipment, the carrying amount of property, plant and equipment, intangibles and goodwill, the provision for doubtful receivables and the valuation allowance for deferred tax assets, the valuation of derivative financial instruments, the measurements of share-based compensation, assets and obligations related to employee benefits, income tax uncertainties and other contingencies. Management believes that the estimates used in the preparation of the consolidated financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the consolidated financial statements.

(c) Financial instruments and concentration of credit risk

Financial instruments that potentially subject the Company to concentration of credit risk are reflected principally in cash and cash equivalents, short term investments, short term deposits, derivative financial instruments and accounts receivable. The Company places its cash and cash equivalents and derivative financial instruments with corporations and banks with high investment grade ratings, limits the amount of credit exposure with any one corporation or bank and conducts an ongoing evaluation of the credit worthiness of the corporations and banks with which it does business. Short term deposits are with GE, a related party, and with other financial institutions. To reduce its credit risk on accounts receivable, the Company performs an ongoing credit evaluation of customers. GE accounted for 46% and 45% of receivables as of December 31, 2009 and March 31, 2010, respectively. GE accounted for 42% and 39% of revenues for the three months ended March 31, 2009 and 2010, respectively.

(d) Business combinations, goodwill and other intangible assets

The Company accounts for its business combinations by recognizing the identifiable tangible and intangible assets and liabilities assumed, and any noncontrolling interest in the acquired business, measured at their acquisition date fair values. All assets and liabilities of the acquired businesses, including goodwill, are assigned to reporting units.

Goodwill represents the cost of the acquired businesses in excess of the fair value of identifiable tangible and intangible net assets purchased. Goodwill is not amortized but is tested for impairment at least on an annual basis on September 30, based on a number of factors including operating results, business plans and future cash flows. Recoverability of goodwill is evaluated using a two-step process. The first step involves a comparison of the fair value of a reporting unit with its carrying value. If the carrying value of the reporting unit exceeds its fair value, the second step of the process involves a comparison of the fair value and carrying value of the goodwill of that reporting unit. If the carrying value of the goodwill of a reporting unit exceeds the fair value of that goodwill, an impairment loss is recognized in an amount equal to the excess. Goodwill of a reporting unit will be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit below its carrying amount.

Intangible assets acquired individually or with a group of other assets or in a business combination are carried at cost less accumulated amortization based on their estimated useful lives as follows:

Customer-related intangible assets	3-10 years
Marketing-related intangible assets	1-5 years
Contract-related intangible assets	1 year
Other intangible assets	3 years

GENPACT LIMITED AND ITS SUBSIDIARIES

Notes to the Consolidated Financial Statements

(Unaudited)

(In thousands, except per share data)

2. Summary of significant accounting policies (Continued)

Intangible assets are amortized over their estimated useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise realized.

In business combinations, where the fair value of identifiable tangible and intangible net assets purchased exceeds the cost of the acquired business, the Company recognizes the resulting gain under 'Other operating (income) expense, net' in the Consolidated Statements of Income on the acquisition date.

(e) Recently adopted accounting pronouncements

The authoritative bodies release standards and guidance which are assessed by management for impact on the Company's consolidated financial statements.

The following recently released accounting standards have been adopted by the Company and certain disclosures in the consolidated financial statements and footnotes to the consolidated financial statements have been modified. Adoption of these standards did not impact the consolidated financial results as they are disclosure-only in nature:

- In April 2009, the FASB issued additional requirements regarding interim disclosures about the fair value of financial instruments which were previously only disclosed on an annual basis. Entities are now required to disclose the fair value of financial instruments which are not recorded at fair value in the financial statements in both their interim and annual financial statements. The new requirements were effective for interim and annual periods ending after June 15, 2009 on a prospective basis. The Company adopted these requirements in the quarter ended June 30, 2009.
- In May 2009, the FASB issued guidelines on subsequent event accounting which sets forth: 1) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements; 2) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements; and 3) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. These guidelines were effective for interim and annual periods ending after June 15, 2009, and the Company adopted them in the quarter ended June 30, 2009.
- In February 2010, the FASB issued ASU 2010-09 which amends ASC 855-10, *Subsequent Events* such that a SEC filer, as defined in the ASU, is no longer required to disclose the date through which subsequent events have been evaluated in the originally issued and revised financials. The ASU also provides that SEC filers must evaluate the subsequent events through the date the financial statements are issued. The provisions of ASU 2010-09 are effective immediately for SEC filers. Effective the date of issuance of the ASU in February 2010, the Company adopted ASU 2010-09.
- On July 1, 2009, the FASB issued the FASB Accounting Standards Codification (the Codification). The Codification became the single source of authoritative nongovernmental U.S. GAAP, superseding existing FASB, American Institute of Certified Public Accountants (AICPA), Emerging Issues Task Force (EITF) and related literature. The Codification eliminates the previous U.S. GAAP hierarchy and establishes one level of authoritative GAAP. All other literature is considered non-authoritative. The Codification was effective for interim and annual periods ending after September 15, 2009.

2. Summary of significant accounting policies (Continued)

- In January 2010, the FASB issued ASU 2010-06 which amends ASC 820, *Fair Value Measurements and Disclosures*. The ASU requires the reporting entities to make new disclosures about recurring and non recurring fair value measurements. This included disclosure regarding significant transfers into and out of Level 1 and Level 2 fair-value measurements in the fair value hierarchy as well as the reasons for the transfer. The ASU also requires a separate disclosure for the purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair-value measurements. The FASB further clarified the existing fair-value measurement disclosure guidance about the level of disaggregation, requiring the entities to disclose the fair value measurements by “Class” instead of “major category”, as well as requiring disclosure for the inputs, and valuation techniques used by the entities for the purpose of fair value measurement using significant observable inputs (Level 2) or significant unobservable inputs (Level 3). The provisions of the ASU 2010-06 are effective for annual and interim reporting periods beginning after December 15, 2009, except for the disclosure for the purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair-value measurements, which will be effective for interim and annual reporting periods beginning after December 15, 2010. Effective January 1, 2010, the Company adopted ASU 2010-06.

The following recently released accounting standards have been adopted by the Company without material impact on the Company’s consolidated results of operations, cash flows, financial position or disclosures:

- In April 2009, the FASB issued guidance on the recognition and presentation of other-than-temporary impairments on investments in debt securities. If an entity’s management asserts that it does not have the intent to sell a debt security and it is more likely than not that it will not have to sell the security before recovery of its cost basis, then an entity may separate other-than-temporary impairments into two components: 1) the amount related to credit losses (recorded in earnings), and 2) all other amounts (recorded in other comprehensive income). This guidance was effective on a prospective basis for interim and annual periods ending after June 15, 2009. The Company adopted this guidance for the quarter ended June 30, 2009.
- In April 2009, the FASB issued guidance on determining fair value when the volume and level of activity for an asset or liability has significantly decreased, and in identifying transactions that are not orderly. Based on the guidance, if an entity determines that the level of activity for an asset or liability has significantly decreased and that a transaction is not orderly, further analysis of transactions or quoted prices is needed, and a significant adjustment to the transaction or quoted prices may be necessary to estimate fair value. The guidance was effective on a prospective basis for interim and annual periods ending after June 15, 2009. The Company adopted this guidance in the quarter ended June 30, 2009.
- In January 2010, the FASB issued guidance which modified the scope provisions that were originally contained in ASC 810-10 on noncontrolling interests and also expands required disclosures about the fair value measurements in accounting for a change in ownership of a subsidiary and previously held equity interests in business combinations achieved in stages. The guidance is effective for the first interim or annual reporting period ending on or after December 15, 2009 and is to be applied on a retrospective basis.

(f) Reclassification

Certain reclassifications have been made in the consolidated financial statements of prior periods to conform to the classification used in the current period.

3. Business acquisitions

(a) Symphony Marketing Solutions, Inc.

On February 3, 2010, the Company acquired 100% of the outstanding equity interest in Symphony Marketing Solutions, Inc., a Delaware corporation (“Symphony”), for cash consideration of \$29,303. Acquisition-related expenses incurred by the Company amounted to \$521, which have been recorded under ‘Selling, general and administrative expenses’ in the Consolidated Statements of Income. Through this acquisition, the Company intends to enhance its expertise in analytics and data management services.

The acquisition of Symphony was accounted for as a business combination, in accordance with the acquisition method. The operations of Symphony and the estimated fair market values of the assets and liabilities have been included in the Company’s consolidated financial statements from the date of acquisition of February 3, 2010.

The above acquired customer related intangible assets have estimated useful lives of 8 to 10 years.

(b) Acquisition of Delivery Center in Danville

In January 2010, the Company finalized an arrangement with Walgreens, the largest drug store chain in the U.S., to acquire a delivery center in Danville, Illinois and entered into a ten year master professional services agreement, or MPSA, with Walgreens. Pursuant to the terms of the MPSA, approximately 500 Walgreens accounting employees in Danville were transferred to Genpact in May 2010. By virtue of the combination of the acquisition of the delivery center and the entry into the MPSA, the Company has acquired an integrated set of activities and assets capable of being managed and conducted for the purpose of providing returns to the Company. This arrangement qualifies as a business combination. As of March 31, 2010, the acquisition was not consummated as a result of certain pending closing conditions. Accordingly, the cash consideration of \$16,347 paid on January 29, 2010 under this arrangement has been accounted for as an advance disclosed under 'Other assets' in the Consolidated Balance Sheet.

7. Fair Value Measurements (Continued)

Following is the reconciliation of loans held for sale which have been measured at fair value using significant unobservable inputs:

The Company values the derivative instruments based on market observable inputs including both forward and spot prices for currencies. The quotes are taken from multiple independent sources including financial institutions. Loans held for sale are valued using collateral values based on inputs from a single source when the Company is not able to corroborate the inputs and assumptions with other relevant market information. Investments in U.S. Treasury bills and notes which are classified as available-for-sale and cash and cash equivalents, depending on the maturity profile, are measured using quoted market prices at the reporting date multiplied by the quantity held.

8. Derivative financial instruments

The Company is exposed to the risk of rate fluctuations on foreign currency assets and liabilities, and foreign currency denominated forecasted cash flows. The Company has established risk management policies, including the use of derivative financial instruments to hedge foreign currency assets and liabilities, and foreign currency denominated forecasted cash flows. These derivative financial instruments are largely deliverable and non-deliverable forward foreign exchange contracts. The Company enters into these contracts with counterparties which are banks / financial institutions and the Company considers the risks of non-performance by the counterparties as non-material. The forward foreign exchange contracts mature between zero and forty-two months and the forecasted transactions are expected to occur during the same period.

The following table presents the aggregate notional principal amounts of the outstanding derivative financial instruments together with the related balance sheet exposure:

- (a) Notional amounts are key elements of derivative financial instrument agreements, but do not represent the amount exchanged by counterparties and do not measure the Company's exposure to credit or market risks. However, the amounts exchanged are based on the notional amounts and other provisions of the underlying derivative financial instruments agreements.
- (b) Balance sheet exposure is denominated in U.S. Dollars and denotes the mark-to-market impact of the derivative financial instruments on the reporting date.

FASB guidance on Derivatives and Hedging requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the statement of financial position. In accordance with the FASB guidance on Derivatives and Hedging, the Company designates foreign exchange forward contracts as cash flow hedges of forecasted revenues and purchase of services. In addition to this the Company also has derivative instruments that are not designated as hedges under the FASB guidance, to hedge the fluctuations in foreign exchange rates for recognized balance sheet items such as receivables and inter-company borrowings.

The fair value of the derivative instruments and their location on the financial statements of the Company is summarized in the table below:

Cash flow hedges

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain (loss) on the derivative instrument is reported as a component of accumulated other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains (losses) on the derivatives representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in earnings.

In connection with cash flow hedges, the Company has recorded as a component of accumulated other comprehensive income (loss) or OCI within equity a gain (loss) of (\$87,001), and (\$32,845) net of taxes, as of December 31, 2009 and March 31, 2010, respectively.

The gains / losses recognized in accumulated other comprehensive income (loss), and their effect on financial performance is summarized below:

- (a) These forward foreign exchange contracts were entered into to hedge the fluctuations in foreign exchange rates for recognized balance sheet items such as receivables and inter-company borrowings, and were not originally designated as hedges under FASB guidance on Derivatives and Hedging. Realized (gains) losses and changes in the fair value of these derivatives are recorded in foreign exchange (gains) losses, net in the consolidated statements of income.
- (b) These forward foreign exchange contracts were initially designated as cash flow hedges under FASB guidance on Derivatives and Hedging. The net (gains) losses amounts of \$5,668 and (\$234) for the three months ended March 31, 2009 and 2010 respectively, include the recognition of unrealized losses for certain derivative contracts previously accounted for within accumulated other comprehensive income (loss). These (gains) losses were recognized as certain forecasted transactions are no longer expected to occur and therefore hedge accounting is no longer applied. For the three months ended March 31, 2009 and 2010, (gains) losses of \$5,668 and \$0, respectively, were recognized in the consolidated statements of income related to these non-designated contracts. In addition, these amounts also include subsequent realized (gains) losses and changes in the fair value of these derivatives and are recorded in foreign exchange (gains) losses, net in the consolidated statements of income.

(a) Options expected to vest reflect an estimated forfeiture rate.

Effective April 1, 2007, an amendment was made to the Indian Income Tax Act to subject specified securities allotted or transferred by an employer to its employee's resident in India to fringe benefit tax, or FBT. When an employee covered under the Indian Income Tax Act exercises a stock option, the shares issued, or allocated and transferred, by the Company to such employee are subject to FBT. The employer liability for FBT arises and is expensed by the Company at the time of such employee's exercise of the stock option.

On August 18, 2009, a further amendment was made to the Indian Income Tax Act, with retroactive effect from April 1, 2009, abolishing the provisions of FBT. Thus any exercises of stock options by the employee on or after April 1, 2009, the shares issued, or allocated and transferred by the Company, would no longer be subject to FBT.

During the period when FBT was applicable, the Company was entitled to and the Company's plans allowed for the collection of the FBT payable from the employee in connection with and at the time of the stock option exercise. The FBT recovered from the employee was treated as an increase in the exercise price. The weighted average grant date fair value of stock options granted during the period when FBT was applicable, reflected an exercise price that included the recovered tax. The FBT recovery by the Company from an employee was recorded as additional paid-in capital in the Consolidated Statements of Equity and Comprehensive Income (Loss).

Of the common shares that were issued, 94,610 common shares were issued to selling shareholders who became employees of the Company and are subject to restrictions on transfer linked to continued employment with the Company for a specified period. The Company has accounted for such shares as compensation for services.

A summary of such shares granted that are subject to restrictions and accounted for as compensation for services, or restricted shares, during the three months ended March 31, 2010 is set out below:

	Three months ended March 31, 2010	
	Number of Restricted Shares	Weighted Average Grant Date Fair Value
Outstanding as of January 1, 2010	47,306	\$ 14.00
Granted	—	—
Vested and allotted	(23,653)	14.00
Forfeited	—	—
Outstanding as of March 31, 2010	23,653	\$ 14.04

As of March 31, 2010, the total remaining unrecognized share-based compensation costs related to Restricted Shares amounted to \$231 which will be recognized over the weighted average remaining requisite vesting period of 1 year.

Restricted Share Units

The Company makes stock awards in the form of restricted share units, or RSUs, under the 2007 Omnibus Plan.

Each RSU represents the right to receive one common share. The fair value of each RSU is the market price of one common share of the Company on the date of grant. The RSUs granted to date have vesting schedules of three to four years and a contractual period of ten years. The compensation expense is recognized on a straight line over the vesting term.

A summary of RSU activity during the quarter ended March 31, 2010 is set out below:

	Three months ended March 31, 2010	
	Number of Restricted Share Units	Weighted Average Grant Date Fair Value
Outstanding as of January 1, 2010	325,000	\$ 10.09
Granted	—	—
Vested and allotted	—	—
Forfeited	—	—
Outstanding as of March 31, 2010	325,000	\$ 10.09

As of March 31, 2010, the total remaining unrecognized share-based compensation costs related to RSUs amounted to \$2,473 and respectively, which will be recognized over the weighted average remaining requisite vesting period of 2.58 years.

12. Share-based compensation (Continued)**Performance Units**

The Company also makes stock awards in the form of Performance Units, or PUs, under the 2007 Omnibus Plan.

During the quarter ended March 31, 2010, the Company granted PUs, wherein each PU represents the right to receive common shares based on the Company's performance against specified targets. These PUs vest after a three-year period. The fair value of each PU is the market price of one common share of the Company on the date of grant, and assumes that performance targets will be achieved. The compensation expense is recognized on a straight line over the vesting term. Over the performance period, the number of shares that will be issued will be adjusted upward or downward based upon the probability of achievement of the performance targets. The ultimate number of shares issued and the related compensation cost recognized as expense will be based on a comparison of the final performance metrics to the specified targets.

A summary of PU activity during the quarter ended March 31, 2010 is set out below:

	Three months ended March 31, 2010	
	Number of Performance Units	Weighted Average Grant Date Fair Value
Outstanding as of January 1, 2010	—	—

Vested and allotted	—	—
Forfeited	—	—
Outstanding as of March 31, 2010	<u>600,000</u>	<u>\$ 16.25</u>

As of March 31, 2010, the total remaining unrecognized share-based compensation costs related to PUs amounted to \$7,156, which will be recognized over the weighted average remaining requisite vesting period of 2.75 years.

Employee Stock Purchase Plan (ESPP)

On May 1, 2008, the Company adopted the Genpact Limited U.S. Employee Stock Purchase Plan and the Genpact Limited International Employee Stock Purchase Plan (together, the "ESPP").

The ESPP allowed eligible employees to purchase the Company's common shares through payroll deduction at 95% of the fair value per share on the last business day of each purchase interval ending on or prior to August 31, 2009. The purchase price has been reduced to 90% of the fair value per share on the last business day of each purchase interval commencing with effect from September 1, 2009. The dollar amount of common shares purchased under the ESPP shall not exceed the greater of 15% of the participating employee's base salary or \$25 per calendar year. With effect from September 1, 2009, the offering periods commence on the first business day in March, June, September and December of each year and end on the last business day in the subsequent May, August, November and February of each year. 4,200,000 common shares have been reserved for issuance in the aggregate over the term of the ESPP.

During the three months ended March 31, 2009 and 2010, common shares issued under the ESPP were 19,300 and 10,427, respectively.

The ESPP was considered non-compensatory under the FASB guidance on Compensation-Stock Compensation until the purchase interval ending on or prior to August 31, 2009. As a result of the change in the discount rate, the ESPP is being considered compensatory with effect from September 1, 2009.

The compensation expenses for the ESPP are recognized in accordance with the FASB guidance on Compensation-Stock Compensation. During the three months ended March 31, 2010, \$15 has been recognized as compensation expense, and has been allocated to cost of revenue and selling, general, and administrative expenses.

GENPACT LIMITED AND ITS SUBSIDIARIES**Notes to the Consolidated Financial Statements****(Unaudited)****(In thousands, except per share data)****13. Earnings per share**

The Company calculates earnings per share in accordance with FASB guidance on Earnings per Share. Basic and diluted earnings per common share give effect to the change in the common shares of the Company. The calculation of earnings per common share was determined by dividing net income available to common shareholders by the weighted average number of common shares outstanding during the respective periods. The potentially dilutive shares, consisting of outstanding options on common shares, restricted share units and performance units have been included in the computation of diluted net earnings per share and the weighted average shares outstanding, except where the result would be anti-dilutive.

The number of stock options outstanding but not included in the computation of diluted earnings per common share because their effect was anti-dilutive is 15,327,639, and 10,382,214 for the three months ended March 31, 2009 and 2010, respectively.

17. Income taxes

As a result of the change in tax status of one of its subsidiaries in the U.S. during the year ended December 31, 2007, the Company recognized the tax effects in the consolidated statement of income for the adjustment in deferred tax liability associated with the unrealized gains on certain effective hedges in other comprehensive income. During the three months ended March 31, 2010, the Company recognized a reversal of deferred tax liability amounting to \$658 for these hedges that matured in three months ended on March 31, 2010.

As of December 31, 2009, the Company had unrecognized tax benefits amounting to \$13,195 including an amount of \$13,019 that, if recognized would impact the effective tax rate.

The following table summarizes the activities related to our unrecognized tax benefits for uncertain tax positions from January 1, 2010 to March 31, 2010:

Opening balance as on January 1, 2010	\$13,195
Increase related to prior year tax positions, including recorded against goodwill	4,245
Effect of exchange rate changes	212
Closing balance as on March 31, 2010	\$17,652

The unrecognized tax benefits as of March 31, 2010 include an amount of \$17,491 that, if recognized, would impact the effective tax rate. As of December 31, 2009 and March 31, 2010, the Company has accrued approximately \$1,930 and \$1,976, respectively, in interest relating to unrecognized tax benefits.

18. Related party transactions

The Company has entered into related party transactions with GE and companies in which GE has a majority ownership interest or on which it exercises significant influence (collectively referred to as "GE" herein). The Company has also entered into related party transactions with its non-consolidating affiliates.

The related party transactions can be categorized as follows:

Revenue from services

Prior to December 31, 2004, substantially all of the revenues of the Company were derived from services provided to GE entities. In connection with the 2004 Reorganization, GE entered into a Master Service Agreement, or MSA, with the Company. The GE MSA, as amended, provides that GE will purchase services in an amount not less than a minimum volume commitment, or MVC, of \$360,000 per year for seven years beginning January 1, 2005, \$270,000 in 2012, \$180,000 in 2013 and \$90,000 in 2014. Revenues in excess of the MVC can be credited, subject to certain limitations, against shortfalls in the subsequent years.

On January 26, 2010, the Company extended its MSA, with GE by two years, through the end of 2016, including the minimum annual volume commitment of \$360,000. The MSA also provides that the minimum annual volume commitment for each of the years 2014, 2015 and 2016 is \$250,000, \$150,000 and \$90,000, respectively.

19. Commitments and contingencies (Continued)

Bank guarantees

The Company has outstanding bank guarantees amounting to \$1,242 and \$1,305 as of December 31, 2009 and March 31, 2010, respectively. Bank guarantees are generally provided to government agencies, excise and customs authorities for the purposes of maintaining a bonded warehouse. These guarantees may be revoked by the governmental agencies if they suffer any losses or damage through the breach of any of the covenants contained in the agreements.

Other commitments

The Company's Delivery Centers in India are 100% Export Oriented units or Software Technology Parks of India ("STPI") units under the STPI guidelines issued by the Government of India or are under qualifying operations of the Special Economic Zones Act, 2005. These units are exempted from customs, central excise duties, and levies on imported and indigenous capital goods, stores, and spares. The Company has executed legal undertakings to pay custom duty, central excise duty, levies, and liquidated damages payable, if any, in respect of imported and indigenous capital goods, stores, and spares consumed duty free, in the event that certain terms and conditions are not fulfilled.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with our Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended December 31, 2009 and with the information under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the year ended December 31, 2009. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those discussed in or implied by any of the forward-looking statements as a result of various factors, including but not limited to those listed below and under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2009.

Special Note Regarding Forward-Looking Statements

We have made statements in this Quarterly Report on Form 10-Q (the “Quarterly Report”) in, among other sections, this Part 1 Item 2-”Management’s Discussion and Analysis of Financial Condition and Results of Operations”, that are forward-looking statements. In some cases, you can identify these statements by forward-looking terms such as “expect”, “anticipate”, “intend”, “plan”, “believe”, “seek”, “estimate”, “could”, “may”, “shall”, “will”, “would” and variations of such words and similar expressions, or the negative of such words or similar expressions. These forward-looking statements, which are subject to risks, uncertainties and assumptions about us, may include projections of our future financial performance, which in some cases may be based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from those expressed or implied by the forward-looking statements. In particular, you should consider the numerous risks outlined in Part I, Item 1A-“Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2009. These forward-looking statements include, but are not limited to, statements relating to:

- our ability to retain existing clients and contracts;
- our ability to win new clients and engagements;
- the expected value of the statements of work under our master service agreements;
- our beliefs about future trends in our market;
- political or economic instability in countries where we have operations;
- worldwide political, economic or business conditions;
- political, economic or business conditions where our clients operate;
- expected spending on business process services by clients;
- foreign currency exchange rates;
- our rate of employee attrition;
- our effective tax rate; and
- competition in our industry.

Factors that may cause actual results to differ from expected results include, among others:

- our ability to grow our business and effectively manage growth and international operations while maintaining effective internal controls;
- our relative dependence on GE;

Table of Contents

- our dependence on revenues derived from clients in the United States;
- our ability to hire and retain enough qualified employees to support our operations;
- our dependence on favorable tax legislation and tax policies that may be amended in a manner adverse to us or be unavailable to us in the future;
- increases in wages in locations in which we have operations;
- restrictions on visas for our employees traveling to North America and Europe;
- our ability to maintain pricing and asset utilization rates;
- fluctuations in exchange rates between U.S. dollars, euros, U.K. pounds sterling, Chinese renminbi, Hungarian forint, Japanese yen, Indian rupees, Australian dollars, Philippines peso, Guatemala quetzal, Mexican peso, Moroccan dirham (DH), Polish zloty, Romanian leu and South African rand;
- our ability to retain senior management;
- the selling cycle for our client relationships;
- our ability to attract and retain clients and our ability to develop and maintain client relationships based on attractive terms;
- legislation in the United States or elsewhere that adversely affects the performance of business process services offshore;
- increasing competition in our industry;
- telecommunications or technology disruptions or breaches, or natural or other disasters;
- our ability to protect our intellectual property and the intellectual property of others;
- further deterioration in the global economic environment and its impact on our clients;
- regulatory, legislative and judicial developments, including the withdrawal of governmental fiscal incentives;
- the international nature of our business;
- technological innovation;
- unionization of any of our employees;
- our ability to derive revenue from new service offerings; and
- our ability to successfully consummate or integrate strategic acquisitions.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. Achievement of future results is subject to risks, uncertainties and potentially inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could differ materially from past results and those anticipated, estimated or projected. You should bear this in mind as you consider forward-looking statements. We are under no obligation to update any of these forward-looking statements after the date of this filing to conform our prior statements to actual results or revised expectations. You are advised, however, to consult any further disclosures we make on related subjects in our Form 10-K, Form 10-Q and Form 8-K reports filed with the SEC.

Overview

We are a leader in managing business processes, offering a broad portfolio of enterprise and industry-specific services. We manage over 3,000 processes for more than 400 clients worldwide. Putting process in the forefront, we couple our deep process knowledge and insights with focused information technology capabilities, targeted analytics and pragmatic reengineering to deliver comprehensive solutions for clients. Lean and Six Sigma are an integral part of our culture and we view the management of business processes as a science. We have launched Smart Enterprise Processes (SEPSM), a groundbreaking, rigorously scientific methodology for managing business processes, which focuses on optimizing process effectiveness in addition to efficiency to deliver superior business outcomes. Services are seamlessly delivered from a global network of centers to meet a client's business objectives, cultural and language needs and cost reduction goals.

We have a unique heritage. We built our business by meeting the demands of the leaders of the General Electric Company, or GE, to increase the productivity of their businesses. We began in 1997 as the India-based captive business process services operation for General Electric Capital Corporation, or GE Capital, GE's financial services business. As the value of offshoring was demonstrated to the management of GE, it became a widespread practice at GE and our business grew in size and scope. We took on a wide range of complex and critical processes and we became a significant provider to many of GE's businesses, including Consumer Finance (GE Money), Commercial Finance, Healthcare, Industrial, NBC Universal and GE's corporate offices.

Our leadership team, our methods and our culture have been deeply influenced by our eight years as a captive operation of GE. Many elements of GE's success—the rigorous use of metrics and analytics, the relentless focus on improvement, a strong emphasis on the client and innovative human resources practices—are the foundations of our business.

As of March 31, 2010, we have approximately 41,300 employees with operations in thirteen countries. In the first quarter of 2010, we had net revenues of \$288.2 million, of which 60.7% was from clients other than GE, which we refer to as Global Clients.

Our registered office is located at Canon's Court, 22 Victoria Street, Hamilton HM, Bermuda.

The Company

The 2004 Reorganization

Prior to December 30, 2004, our business was conducted through various entities and divisions of GE. On December 30, 2004, in a series of transactions we refer to as the "2004 Reorganization," GE reorganized these operations by placing them all under Genpact Global Holdings SICAR S.à.r.l., or GGH, a newly formed Luxembourg entity. GE's affiliate, GE Capital International (Mauritius) also sold an indirect 60% interest in GGH to Genpact Investment Co. (Lux) SICAR S.à.r.l., or GICo, an entity owned in equal portions by General Atlantic LLC, or General Atlantic, and Oak Hill Capital Partners, or Oak Hill. On December 16, 2005, GE's affiliate sold a portion of its equity in us to a subsidiary of Wachovia Corporation. Wachovia Corporation merged with Wells Fargo & Company on December 31, 2008. On December 22, 2006, we redeemed shares held by GE affiliates. On December 18, 2007, GE's affiliate, GE Capital (Mauritius) Holdings Ltd., sold a further portion of its equity in us to an affiliate of a limited partner of one of our shareholders. GE further divested its shares pursuant to our secondary offering completed on March 24, 2010. As of March 31, 2010, GE, through its affiliates, owned 9.1% of our outstanding equity.

Following the 2004 Reorganization, we began operating as an independent company. We separated ourselves operationally from GE and began building the capabilities necessary to be successful as an independent company. Among other things, we expanded our management infrastructure and business development capabilities so that we could secure business from clients other than GE. We substantially expanded administrative functions for which we had previously relied primarily on GE, such as finance, legal, accounting and human resources. We set up separate employee benefit and retirement plans, developed our own leadership training capability and enhanced our management information systems.

The 2007 Reorganization and IPO

On March 29, 2007, we formed Genpact Limited in Bermuda to be the new holding company for our business. It was initially a wholly-owned subsidiary of GGH. On July 13, 2007, we effectuated a transaction that resulted in Genpact Limited owning 100% of the capital stock of GGH. This transaction together with other related transactions is referred to as the "2007 Reorganization."

[Table of Contents](#)

We use the terms “Genpact”, “Company”, “we” and “us” to refer to both GGH and its subsidiaries prior to July 13, 2007 and Genpact Limited and its subsidiaries after such date.

On August 1, 2007, we commenced an initial public offering of our common shares, pursuant to which we and certain of our existing shareholders each sold 17.65 million common shares at a price of \$14 per share. The offering resulted in gross proceeds of \$494.1 million and net proceeds to us and the selling shareholders of approximately \$233.5 million each after deducting underwriting discounts and commissions. Additionally, we incurred offering-related expenses of approximately \$9.0 million. On August 14, 2007, the underwriters exercised their option to purchase 5.29 million additional common shares from us at the initial offering price of \$14 per share to cover over-allotments resulting in additional gross proceeds of \$74.1 million and net proceeds of approximately \$70.0 million to us, after deducting underwriting discounts and commissions.

Secondary Offering

On March 24, 2010, we completed a secondary offering of our common shares, pursuant to which certain of our shareholders sold 38.64 million common shares at a price of \$15 per share, which included the underwriters exercise of their option to purchase an additional 5.04 million common shares from selling shareholders at the offering price of \$15 per share to cover over-allotments. All of the common shares were sold by our shareholders and, as a result, we did not receive any of the proceeds from the offering. We incurred offering-related expenses of approximately \$0.6 million. Upon completion of the secondary offering, GE’s shareholding declined to 9.1% and it ceased to be a significant shareholder although it continues to be a related party in accordance with the provisions of Regulation S-X Rule 1-02(s).

Acquisitions

From time to time we may make acquisitions or engage in other strategic transactions if suitable opportunities arise, and we may use cash, securities or other assets as consideration.

In January 2010, we acquired 27% of the outstanding equity in High Performance Partners, LLC, or HPP, a company focused on developing and applying innovative technology solutions for the mortgage industry, for cash consideration of \$2.0 million. The Company follows the equity method of accounting to account for this investment.

In January 2010, we finalized an arrangement with Walgreens, the largest drug store chain in the U.S., to acquire a delivery center in Danville, Illinois and entered into a ten year MPSA with Walgreens, for cash consideration of \$16.3 million. Pursuant to the terms of the MPSA, approximately 500 Walgreens accounting employees in Danville were transferred to Genpact in May 2010. By virtue of the combination of the acquisition of the delivery center and the entry into the MPSA, we have acquired an integrated set of activities and assets capable of being managed and conducted for the purpose of providing returns to us, and this arrangement qualifies as a business combination. As of March 31, 2010, the business combination was not consummated as a result of certain pending closing conditions. The transaction is expected to close in the second quarter of 2010.

In February 2010, we acquired Symphony Marketing Solutions, Inc., or Symphony, a leading provider of analytics and data management services with domain expertise in the retail, pharmaceutical and consumer packaged goods industries for cash consideration of \$29.3 million. The acquisition of Symphony was accounted for as a business combination in accordance with the acquisition method.

Critical Accounting Policies and Estimates

For a description of our critical accounting policies, see Note 2-“Summary of significant accounting policies” under Item 1-“Financial Statements” above and Part-II Item-7-“Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2009.

Three Months Ended March 31, 2010 Compared to Three Months Ended March 31, 2009

Net revenues. Our net revenues increased by \$22.4 million, or 8.4%, in the first quarter of 2010 compared to the first quarter of 2009. Our growth in net revenues is from expanded volumes with existing clients as well as business from new clients. Our total headcount increased by 13.2% to approximately 41,300 at the end of the first quarter of 2010 from approximately

36,500 at the end of the first quarter of 2009. The revenue growth was partially off-set by a decrease in our revenue per employee from approximately \$30.3 thousand in the first quarter of 2009 to approximately \$29.9 thousand in the first quarter of 2010 due to an increase in the number of personnel hired for future growth.

Net revenues from GE increased by \$1.3 million, or 1.2%. This increase was primarily driven by new growth in procurement services for GE's infrastructure and healthcare businesses partially offset by volume and price reductions in a few SOWs. In addition, the increase in revenue is attributable to the strengthening of the pound sterling and the Australian dollar against the U.S. dollar, as a portion of our GE revenues are received in such currencies. As a result of the growth in revenues from Global Clients, GE net revenues declined as a percentage of our total net revenues from 42.1% in the first quarter of 2009 to 39.3% in the first quarter of 2010.

Net revenues from Global Clients increased by \$21.1 million, or 13.7%. This increase resulted from new business from clients added in the last twelve months, and the acquisition of Symphony in the first quarter of 2010, partially offset by price reductions and volume contractions in certain existing SOWs. In addition, the increase in revenue is attributable to the strengthening of the pound sterling and Australian dollar against the U.S. dollar, as a portion of our Global Clients revenues are received in such currencies. As a percentage of total net revenues, net revenues from Global Clients increased from 57.9% in the first quarter of 2009 to 60.7% in the first quarter of 2010.

Revenues from business process services increased to 85.2% of total net revenues in the first quarter of 2010 from 83.1% in the first quarter of 2009. Our business process services business grew 11.2% from the first quarter of 2009 to \$245.7 million in the first quarter of 2010. The increase in our business process services revenues was primarily due to services for our Global Clients and the acquisition of Symphony in the first quarter of 2010. We also saw volume increases for business process services for GE. Revenues from our information technology business declined to 14.8% of total net revenues in the first quarter of 2010 from 16.9% in the first quarter of 2009, due to continued reduction in spending on discretionary information technology projects by GE as well as a reduction in prices, partially offset by new Global Client wins in India and growth in China and the Netherlands.

Cost of revenue. The following table sets forth the components of our cost of revenue in absolute amounts and as a percentage of net revenues:

	Three Months Ended March 31,			
	2009		2010	
	(dollars in millions)			
Personnel expenses	\$ 100.0	37.6%	\$ 115.0	39.9%
Operational expenses	52.7	19.8	49.4	17.1
Depreciation and amortization	11.0	4.2	12.3	4.3
Cost of revenue	\$ 163.7	61.6%	\$ 176.7	61.3%

Cost of revenue increased by \$13.0 million, or 7.9%. This increase reflected the general growth of our business primarily attributable to the increase in personnel. As a percentage of net revenues, cost of revenue decreased marginally from 61.6% in the first quarter of 2009 to 61.3% in the first quarter of 2010. This decrease was primarily due to a decrease in operational expenses.

The largest component of the increase in cost of revenue was personnel expenses, which increased by \$15.0 million, or 15.0%. This increase in absolute amount was primarily due to the hiring of new resources to manage growth including employees added through acquisitions in the first quarter of 2010. The increase also reflects overall wage inflation. In addition, the increase in personnel expenses reflects lower realization on our contracted Indian rupee-U.S. dollar hedges in 2010 compared to 2009, thus increasing our costs. As a result our personnel expenses as a percentage of net revenues increased from 37.6% in the first quarter of 2009 to 39.9% in the first quarter of 2010.

[Table of Contents](#)

Operational expenses decreased by \$3.3 million, or 6.3%. The decrease was largely due to renegotiations of certain service contracts. In addition, there was a credit in indirect taxes in India off-set by higher costs as a result of lower realization on our contracted Indian rupee-U.S. dollar hedges in 2010 compared to 2009. As a result, the operational expenses as a percentage of net revenues decreased from 19.8% in the first quarter of 2009 to 17.1% in the first quarter of 2010.

Depreciation and amortization expenses increased by \$1.3 million, or 11.7%. The increase was largely due to capital expenditures incurred for expansion of infrastructure and IT related facilities over the last twelve months in India (Gurgaon), the Americas and Europe to support growth, and higher costs as a result of lower realization on our contracted Indian rupee-U.S. dollar hedges in 2010 compared to 2009. As a percentage of net revenues, depreciation and amortization expenses increased from 4.2% in the first quarter of 2009 to 4.3% in the first quarter of 2010.

As a result of the foregoing, our gross profit increased by \$9.4 million, or 9.2%, and our gross margin increased from 38.4% in the first quarter of 2009 to 38.7% in the first quarter of 2010.

Selling, general and administrative expenses. The following table sets forth the components of our selling, general and administrative expenses in absolute amounts and as a percentage of net revenues:

	Three Months Ended March 31,			
	2009		2010	
	(dollars in millions)			
Personnel expenses	\$41.3	15.5%	\$51.3	17.8%
Operational expenses	20.2	7.6	18.7	6.5
Depreciation and amortization	2.4	0.9	2.9	1.0
Selling, general and administrative expenses	\$63.9	24.0%	\$72.9	25.3%

Selling, general and administrative expenses, or SG&A expenses, increased by \$9.0 million, or 14.2%. As a percentage of net revenues, SG&A expenses increased from 24.0% in the first quarter of 2009 to 25.3% in the first quarter of 2010. This was primarily due to increased personnel expenses.

Personnel expenses increased by \$10.0 million, or 24.2%. The increase in personnel expenses is primarily due to an increase in senior level employees in our business development team as well as general wage inflation. In addition, this increase was attributable to higher costs as a result of lower realization on our contracted Indian rupee-U.S. dollar hedges in 2010 compared to 2009. As a result, personnel expenses as a percentage of net revenues increased from 15.5% in the first quarter of 2009 to 17.8% in the first quarter of 2010.

The operational expenses component of SG&A expenses decreased by \$1.5 million, or 7.5%. This decrease is attributable to a reduction in the reserve for doubtful debts due to collection of old doubtful receivables in the first quarter of 2010 and a credit in indirect taxes in India partially offset by higher travel related expenses for business development activities and higher costs as a result of lower realization on our contracted Indian rupee-U.S. dollar hedges in 2010 compared to 2009. As a result, operational expenses as a percentage of net revenues decreased from 7.6% in the first quarter of 2009 to 6.5% in the first quarter of 2010.

[Table of Contents](#)

Depreciation and amortization expenses as a component of SG&A expenses increased marginally by \$0.5 million to \$2.9 million in the first quarter of 2010. This increase in depreciation and amortization expenses is due to higher capital expenditure incurred for expansion of existing Delivery Centers over the last twelve months and higher costs as a result of a lower realization on our contracted Indian rupee-U.S. dollar hedge rate in 2010 compared to 2009.

Amortization of acquired intangibles. In the first quarter of 2009 and 2010, we continued to incur significant non-cash charges of \$6.9 million and \$4.2 million, respectively, consisting primarily of the amortization of acquired intangibles resulting from the 2004 Reorganization, consistent with the amortization schedule.

Other operating (income) expense, net. Other operating income, consisting primarily of income from shared services from GE for the use of our Delivery Centers and certain support functions that GE manages and operates with its own employees, increased to \$2.8 million in the first quarter of 2010 compared to \$1.7 million in the first quarter of 2009 mainly due to reversal of the provision of \$1.3 million for employee related statutory liabilities in one of our subsidiaries. We do not recognize the shared services income as net revenues because it is not currently one of our primary service offerings; however, our costs are included in cost of revenue and SG&A.

Income from operations. As a result of the foregoing factors, income from operations increased by \$4.2 million to \$37.3 million in the first quarter of 2010. As a percentage of net revenues, income from operations increased from 12.5% in the first quarter of 2009 to 12.9% in the first quarter of 2010.

Foreign exchange (gains) losses, net. We recorded a foreign exchange loss of \$0.7 million for the first quarter of 2010, primarily relating to the re-measurement of our non-functional currency assets and liabilities resulting from movements in the Indian rupee and U.S. dollar exchange rates in the first quarter of 2010 compared to exchange gain of \$2.8 million in the first quarter of 2009, net of the impact of the discontinuance of certain cash flow hedges in the first quarter of 2009.

Other income (expense), net. We recorded other income, net of interest expense, of \$1.3 million in the first quarter of 2010 compared to \$1.1 million in the first quarter of 2009. The change was driven by a decrease in interest expense primarily due to repayment of a portion of our long-term loan during 2009 and other income of \$1.0 million off-set by secondary offering expenses of \$0.6 million. In addition, the weighted average rate of interest with respect to outstanding long-term loans under our credit facility was reduced from 2.2% in the first quarter of 2009 to 1.0% in the first quarter of 2010.

We earned lower interest income in the first quarter of 2010 due to our investment in U.S. Treasury bills compared to our investment in higher interest bearing bank deposits in the first quarter of 2009.

Income before share of equity in (earnings) loss of affiliates and income tax expense. As a result of the foregoing factors, income before equity in (earnings) loss in affiliates and income tax expense increased by \$0.8 million. As a percentage of net revenues, income before equity in (earnings) loss in affiliates and income tax expense decreased from 13.9% in the first quarter of 2009 to 13.1% of net revenues in the first quarter of 2010.

Equity in loss of affiliates. This represents our share of loss from our non-consolidated affiliates, NGEN Media Services Private Limited, a joint venture with NDTV Networks Plc., NIIT Uniqua, a joint venture with NIIT, one of the largest training institutes in Asia, and HPP.

Income before income tax expense. As a result of the foregoing factors, income before income tax expense increased by \$0.7 million. As a percentage of net revenues, income before income tax expense decreased from 13.8% of net revenues in first quarter of 2009 to 13.0% of net revenues in the first quarter of 2010.

Income tax expense. Our income tax expense increased from \$4.9 million in the first quarter of 2009 to \$7.2 million for the first quarter of 2010. This increase is driven by the expiry of the Indian tax holiday for our major site at Hyderabad, and also expiry of certain other tax benefits, including the reversal of certain deferred tax liabilities on derivatives that we were able to use in prior years.

Net income. As a result of the foregoing factors, net income decreased by \$1.6 million from \$31.9 million in the first quarter of 2009 to \$30.2 million in the first quarter of 2010. As a percentage of net revenues, our net income was 12.0% in the first quarter of 2009 and 10.5% in the first quarter of 2010.

[Table of Contents](#)

Net income attributable to noncontrolling interest. The noncontrolling interest is due to the acquisition of E-Transparent B.V. and certain related entities, or ICE, in 2007. It represents the apportionment of profits to the minority partners of ICE.

Net income attributable to Genpact Limited shareholders. As a result of the foregoing factors, net income attributable to Genpact Limited shareholders decreased by \$1.8 million from \$30.0 million in the first quarter of 2009 to \$28.2 million in the first quarter of 2010. As a percentage of net revenues, our net income was 11.3% in the first quarter of 2009 and 9.8% in the first quarter of 2010.

Liquidity and Capital Resources

Overview

Information about our financial position as of December 31, 2009 and March 31, 2010 is presented below:

	As of December 31, 2009	As of March 31, 2010	%
	(dollars in millions)		Change
Cash and cash equivalents	\$ 288.7	\$ 340.9	18.1%
Short-term investment	132.6	—	(100.0)
Short-term deposits with related party	9.6	—	(100.0)
Short-term Borrowings	0.2	—	(100.0)
Long-term debt due within one year	44.7	47.3	5.7
Long-term debt other than the current portion	25.0	12.5	(50.0)
Genpact Limited total shareholders' equity	\$ 1,197.4	\$ 1,310.3	9.4%

Financial Condition

We finance our operations and our expansion with cash from operations and short-term borrowing facilities. We also incurred \$180 million of long-term debt to finance in part the 2004 Reorganization.

Our cash and cash equivalents were \$340.9 million as of March 31, 2010 compared to \$288.7 million as of December 31, 2009. Our cash and cash equivalents are comprised of (a) \$182.6 million in cash in current accounts across all operating locations to be used for working capital and immediate capital requirements, (b) \$106.5 million in term deposits with banks to be used for medium term planned expenditure and capital requirements and (c) \$51.8 million in U.S. Treasury bills with an original maturity of less than three months.

In addition, as of March 31, 2010, we had no short-term investment in U.S. Treasury bills and short-term deposits with GE India affiliates compared to \$132.6 million and \$9.6 million as of December 31, 2009.

We expect that in the future our cash from operations, cash reserves and debt capacity will be sufficient to finance our operations as well as our growth and expansion. Our working capital needs are primarily to finance our payroll and other related administrative and information technology expenses in advance of the receipt of accounts receivable. Our capital requirements include the opening of new Delivery Centers, as well as financing acquisitions.

Cash flows from operating, investing and financing activities, as reflected in our consolidated statements of cash flows, are summarized in the following table:

	Three months Ended March 31,	
	2009	2010
	(dollars in millions)	
Net cash provided by (used in)		
Operating activities	\$ 18.8	\$ (20.1)
Investing activities	28.1	73.4
Financing activities	(6.9)	(6.1)
Net increase (decrease) in cash and cash equivalents	<u>\$ 39.9</u>	<u>\$ 47.3</u>

Cash flow from operating activities. Our net cash used for operating activities was \$20.1 million in the first quarter of 2010 as compared to \$18.8 million of cash from operations generated in the first quarter of 2009. The year over year decline was primarily due to incremental working capital of \$9.3 million related to the acquisition of Symphony including acquired current liabilities of \$5.4 million, deposits for infrastructure investments of \$4 million, an increase in accounts receivable, and reduction in current liabilities, including employee bonus payments.

Cash flow from investing activities. Our net cash provided by investing activities was \$73.4 million in the three months ended March 31, 2010 compared to \$28.1 million in the three months ended March 31, 2009. We paid \$25.0 million in the first quarter of 2010 for purchases of property, plant and equipment in connection with the expansion of existing Delivery Centers and capital expenditures payable compared to \$13.5 million in the three months ended March 31, 2009. We realized \$132.6 million from the sale of U.S. Treasury bills and \$9.8 million from redemption of deposits with GE India during the first quarter of 2010. During the first quarter of 2010 we paid \$42.0 million for business acquisitions, net of cash acquired, including \$16.3 million as an advance. We made an investment of \$2.0 million in a non-consolidating affiliate in the first quarter of 2010.

Cash flow from financing activities. Our net cash used for financing activities was \$6.1 million in the three months ended March 31, 2010, compared to \$6.9 million in the three months ended March 31, 2009. We repaid \$10.0 million of our long term debt as part of our scheduled repayments under our credit agreement and \$0.2 million of our short-term borrowings drawn in the fourth quarter of 2009 in the three months ended March 31, 2010 as compared to repayment of \$5.0 million of long term debt in the three months ended March 31, 2009. In addition, we paid the noncontrolling partners of ICE \$1.7 million in the three months ended March 31, 2010 compared to \$1.8 million in the three months ended March 31, 2009. We received \$6.4 million as proceeds from the issuance of common shares on exercise of employee stock options in the three months ended March 31, 2010 as compared to \$0.6 million in the three months ended March 31, 2009.

Financing Arrangements

Total long-term debt excluding capital lease obligations was \$59.8 million at March 31, 2010 compared to \$69.7 million at December 31, 2009, which represented long-term debt primarily related to the 2004 Reorganization. The weighted average rate of interest with respect to outstanding long-term loans under the credit facility was 2.2% and 1.0% for the three months ended March 31, 2009 and 2010, respectively.

We finance our short-term working capital requirements through cash flow from operations and credit facilities from banks and financial institutions. As of March 31, 2010, short-term credit facilities available to the Company aggregated \$145.0 million, which are under the same agreement as our long-term debt facility. As of March 31, 2010, a total of \$17.0 million was utilized, which represented non-funded drawdown.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements consist of certain operating leases. For additional information, see “Contractual Obligations” below.

Contractual Obligations

The following table sets forth our total future contractual obligations as of March 31, 2010:

	<u>Less than 1 year</u>	<u>1-3 years</u>	<u>4-5 years</u>	<u>After 5 years</u>	<u>Total</u>
Long-term debt	\$ 47.3	\$ 12.5	\$ —	\$ —	\$ 59.8
Capital leases	3.5	3.2	0.1	—	6.9
Operating leases	26.0	48.7	78.4	—	153.0
Purchase obligations	10.3	—	—	—	10.3
Capital commitments net of advances	14.9	—	—	—	14.9
Other long-term liabilities (1)	92.6	35.5	1.4	—	129.4
Total contractual cash obligations	\$ 194.5	\$ 99.9	\$ 79.9	\$ —	\$374.3

(1) Excludes \$17.7 million related to uncertain tax positions. For such amount, the extent of the amount and timing of payment or cash settlement is not reliably estimable or determinable, at present.

Recent Accounting Pronouncements

Recently adopted accounting pronouncements

For a description of recently adopted accounting pronouncements in 2009, see Note 2 - "Recently adopted accounting pronouncements" under Item 1 - "Financial Statements" above and Part-II Item-7 - "Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies and Estimates" in our Annual Report on Form 10-K for the year ended December 31, 2009.

Recently issued accounting pronouncements

In April, 2010, FASB issued ASU 2010-13 which states that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, such an award should not be classified as a liability based only on this condition if it otherwise qualifies as equity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The Company does not expect a significant impact upon adoption of the provisions of the FASB guidance on the Company's consolidated financial statements.

In October 2009, FASB issued ASU 2009-13 which amended revenue recognition guidance for arrangements with multiple deliverables. The new guidance eliminate the requirement that all undelivered elements have Vendor Specific Objective Evidence (VSOE) or Third Party Evidence (TPE) before an entity can recognize the portion of an overall arrangement fee that is attributable to items that already have been delivered. In the absence of VSOE or TPE of the standalone selling price for one or more delivered or undelivered elements in a multiple-element arrangement, the overall arrangement fee will be allocated to each element (both delivered and undelivered items) based on their relative estimated selling prices.

Application of the "residual method" of allocating an overall arrangement fee between delivered and undelivered elements will no longer be permitted upon adoption of this new FASB guidance. The provisions of this FASB guidance will be effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. Early adoption will be permitted. The Company is currently evaluating the effect of adoption of the provisions of the FASB guidance on the Company's consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

During the three months ended March 31, 2010, there were no material changes in our market risk exposure. For a discussion of our market risk associated with foreign currency risk, interest rate risk and credit risk, see Item 7A "Quantitative and Qualitative Disclosures about Market Risk" in our Annual Report on Form 10-K for the year ended December 31, 2009.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are the Company's controls and other procedures which are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 (the "Exchange Act") is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer along with the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to the Exchange Act Rule 13a-15(b). Based upon that evaluation, the Company's Chief Executive Officer along with the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting during the quarter ended March 31, 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II

Item 1. Legal Proceedings

There are no legal proceedings pending against us that we believe are likely to have a material adverse effect on our business, results of operations and financial condition.

Item 1A. Risk Factors

We have disclosed under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2009 the risk factors that materially affect our business, financial condition or results of operations. You should carefully consider the "Risk Factors" set forth in our Annual Report on Form 10-K for the year ended December 31, 2009 and the other information set forth elsewhere in this Quarterly Report on Form 10-Q. You should be aware that these risk factors and other information may not describe every risk facing our Company. Additional risks and uncertainties not currently known to us also may materially adversely affect our business, financial condition and/or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Sales of Equity Securities

None.

Use of Proceeds

On August 1, 2007, we commenced an initial public offering of our common shares, pursuant to which the Company and our selling shareholders each sold 17,647,059 common shares at a price of \$14 per share. On August 14, 2007, the underwriters exercised their option to purchase 5,294,118 additional common shares from the Company at the initial offering price of \$14 per share to cover over-allotments. The sales were made pursuant to a registration statement on Form S-1 (File No. 333-142875), which was declared effective by the SEC on August 1, 2007. The managing underwriters in the offering were Morgan Stanley & Co. Incorporated, Citigroup Global Markets Inc. and J.P. Morgan Securities Inc. The underwriting discounts and commissions and offering expenses payable by us aggregated \$9.0 million, resulting in net proceeds to us of \$294.5 million. We did not receive any proceeds from common shares sold by the selling shareholders.

We used \$98.1 million of the net proceeds from our initial public offering to repay revolving loan indebtedness outstanding under our credit facility. In addition, we used \$70.0 million of the net proceeds from our initial public offering partially to repay long term indebtedness outstanding under our credit facility in accordance with the regular payment schedule for such indebtedness.

We paid \$16.3 million in January 2010 for the arrangement with Walgreens and acquired Symphony for \$29.3 million in February 2010. The remaining proceeds are invested in short-term deposit accounts and U.S. Treasury bills. There has been no material change in the planned use of proceeds from our initial public offering as described in our final prospectus filed with the SEC pursuant to Rule 424(b) on August 2, 2007.

CHIEF EXECUTIVE OFFICER CERTIFICATION

I, Pramod Bhasin, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Genpact Limited for the period ended March 31, 2010, as filed with the Securities and Exchange Commission on the date hereof;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
